

# Responses to Heritage Questions from Ward 8 Candidates for the 2021 Calgary Municipal Election (presented in alphabetical order)

Q1. Do you believe the City is doing enough to help preserve Calgary’s remaining heritage?	Q2. Will you support full funding for a new Council- approved policy that provides tools and financial incentives for heritage conservation?	Q3. Do you support the introduction of new policies to create heritage districts in Calgary?

<p>No. I believe this is a fluid and ongoing process. Especially given our current housing needs, we must be diligent to ensure that we are preserving the narrative of our history while supporting the ongoing changes needed to create a dynamic and inclusive city. It is not perfect, which is why we must always respond to our changing needs.</p>	<p>Yes. I believe this is the beginning of a process that allows for a collaborative approach to heritage that gives people the opportunity to be a part of our shared narrative without the financial burden that may come along with it. It also supports the long term goal of creating diverse housing, public and community spaces, and maintaining the character of our heritage neighbourhoods.</p>	<p>I openly admit that my knowledge in this area is light. I would prefer to hold off on offering a perspective without further information.</p>
